

Appalachian Power – VA Low-Income Single Family Program Application

Thank you for your interest in the Appalachian Power Virginia Low-Income Single Family Program!

The Low-Income Single Family Program reduces energy consumption by educating residential customers about the energy and money saving benefits associated with energy efficiency in the home. The program targets opportunities that are proven to save energy, reduce consumption, and protect the health and safety of occupants while helping to lower their electric bills.

Eligible upgrades may include:

- Energy efficient lighting
- Electric water heating measures
- HVAC repair, replacement, and maintenance
- Insulation and air sealing
- Health and safety upgrades

The program targets single family dwellings within Appalachian Power’s Virginia territory. Eligible participants and dwellings may include:

- Any participant who resides in a single family home that is served by Appalachian Power.
- The household total annual income is at or below 60 percent of the state median income level.
