

Appalachian Power – VA Low-Income Multifamily Program Application

Thank you for your interest in the Appalachian Power Virginia Low-Income Multifamily Program!

The Low-Income Multifamily Program reduces energy consumption by educating residential customers about the energy and money saving benefits associated with energy efficiency in the home. The program targets opportunities that are proven to save energy, reduce consumption, and protect the health and safety of occupants while helping to lower their electric bills.

Eligible upgrades may include:

- Energy efficient lighting
- Electric water heating measures
- HVAC repair, replacement, and maintenance
- Insulation and air sealing
- Health and safety upgrades

The program targets individually metered multifamily dwellings within Appalachian Power's Virginia territory. Eligible participants and properties are identified and qualified through two processes:

- A minimum of 66% (50% for any buildings under 5 units) of the dwelling units in the building are occupied by a family unit whose household annual income does not exceed 80% of the Virginia State Median Income
- The HUD-DOE approved multifamily list property

Appalachian Power values your privacy. Learn more at aep.com/privacy.

Appalachian Power – VA Low-Income Multifamily Program Application

To determine initial eligibility for the property, does your property meet the following guidelines?

1. Is the property individually metered?
Yes _____ No _____

2. Is Appalachian Power Company the electric provider of the property?
Yes _____ No _____

3. A minimum of 66% of the dwelling units in the building are occupied by a family unit whose household annual income does not exceed 80% of the Virginia State Median Income. (If you are on the HUD list, please check yes.)
Yes _____ No _____

Size of Family Unit	Income Limits
1	\$47,457
2	\$62,059
3	\$76,661
4	\$91,264
5	\$105,866
6	\$120,468
7	\$123,206

If you answered yes to all three questions above, proceed with the application process.
